 - d) Winter Try It Event Update Andrea Oneski
 - e) Vistas Parks Strategy √ Dean Ohnysty
7. **REPORTS / RECOMMENDATIONS**
 - a) Parks and Recreation Department Activity Report √ Dean Ohnysty
 - b) Regional Reports
8. **NEXT MEETING DATE**

The next regular PRAC meeting will be held Wednesday, June 12, 2019 at 6:30 p.m. at the Genesee Group Camping Site, Warburg, AB.
9. **INFORMATION ITEMS**
 - a)
10. **ADJOURNMENT**

MINUTES OF THE LEDUC COUNTY PARKS AND RECREATION ADVISORY COMMITTEE MEETING HELD ON WEDNESDAY THE FOURTEENTH DAY OF NOVEMBER, 2018 A.D. AT 6:30 P.M. AT THE COUNTY CENTRE, NISKU, ALBERTA

Order and Roll Call

The meeting was called to order at 6:30 p.m. by Tracy Musson with the following committee members present:

Tracy Musson - Thorsby Representative
Donna Eklund – Calmar Representative
Ginger Collisson - Leduc Representative
Tasha Harrop – Warburg Representative
Ronald Patrick - Devon Representative
Councillor Kelly-Lynn Lewis

The following committee members sent regrets:

Elizabeth Leeb - New Sarepta Representative
Mayor Tanni Doblanko

The following committee member was absent:

Darlene Shield - Beaumont Representative

Also present were:

Dean Ohnysty – Director of Parks & Recreation
Andrea Oneski, Community Development Coordinator
Darlene Chimera - Recording Secretary

Agenda Adoption

Motion: Ginger Collisson - that the agenda for the November 14, 2018 meeting be adopted as presented.

Carried Unanimously

Approval of Minutes

Motion: Kelly-Lynn Lewis - that the minutes of the June 13, 2018 Parks and Recreation Advisory Committee Meeting be approved as presented.

Carried Unanimously

OLD BUSINESS

Budget Updates

Dean Ohnysty advised that the Parks and Recreation budget has been reviewed and will be going to Council for approval shortly. The key change to the budget is that the East Area Needs Assessment Plan has been merged into a full Parks, Recreation and Culture Master Plan. This will be a two-year project with a budget of \$200,000. As well, the proposed \$125,000 budgeted for Park Enhancement Community Grant funding has been cut from the budget.

NEW BUSINESS

Board Member Appointments Expiring

Tasha Harrop (Warburg) and Ronald Patrick (Devon) have their first terms expiring on December 31, 2018. Both committee members are encouraged to apply for a second term.

Proposed 2019 Meeting Schedule

A copy of the Proposed 2019 Meeting Schedule was distributed for information. Should there be a conflict with a meeting date and an alternate date will to be considered.

Recreation Cost Share Reviews

Review of the Cost Share Agreements is included in the 2019 Business Plan. Leduc and Beaumont have formed committees to start the review process on these agreements. The Warburg and Thorsby agreements will be reviewed once the Leduc and Beaumont agreements have been completed.

Recreation Policy Update

The revised Recreation Policy is going to Council for approval. Currently community associations receive an annual grant for operations and can apply for additional money for small projects or purchases. The key change to the policy is to increase the amount given to the community associations from \$3,300 to \$5,000. The increased funding is intended to be used for increased operating costs as well as small capital projects, which may include small renovations, purchasing equipment or supplies, as well as small hall upgrades. They will not be eligible to apply for further project grant funding.

The Recreation Boards will continue to receive \$7,500 of which community groups are eligible to apply for grant funding for programs, special events and new initiatives throughout the region.

Special project and emergency funding may be requested for large projects or support due to circumstances beyond their control.

The Arts and Cultural Grant offers annual funding opportunities to groups and organizations that encourage the development of arts and cultural related events and programs.

Facility Construction Update (Warburg and Beaumont)

Leduc County Council has agreed to fund two major projects

- 1) Warburg Arena Upgrades. Work began in September. Work has been steady and progressing as scheduled.
- 2) Beaumont Fieldhouse Renovations. Leduc County has agreed to contribute \$2.4M over five years to this major renovation.

Summer Programs Presentation

Andrea Oneski gave a slide show presentation of the 2018 summer programs.

REPORTS

Department Activity Reports and Correspondence

A copy of the Department Activity Report was distributed for information.

ARPA Conference Review

A copy of the ARPA Conference Review was distributed for information.

Regional Reports

Verbal reports were given for each region.

Next Meeting

The next meeting of the Parks and Recreation Advisory Committee will be held on Wednesday March 6, 2019 at 6:30 p.m. at the County Centre, Nisku, Alberta.

Information Items

Not any.

Adjournment

Motion: Ronald Patrick – that the meeting be adjourned at 8:30 p.m.

Carried Unanimously

Chairperson

Director

Alberta Healthy Communities Initiative

On behalf of the Hamlet of New Sarepta, Leduc County has been selected from 60 rural Alberta communities to take part in the 3 year Alberta Healthy Communities Initiative.

The AHC initiative will give New Sarepta the opportunity to create or enhance local partnerships to address community wellness. The vision of this initiative is to create healthier, more engaged communities across Alberta. This is an opportunity to develop initiatives based on New Sarepta's unique assets and opportunities by using community-centered, evidence based action collected from up to date community data. The Alberta Healthy Communities (AHC) initiative supports communities to create multi-sectoral teams that will assess local environments, set priorities, develop, implement, and evaluate action plans for sustainable health outcomes.

Along with resources and facilitators this initiative comes with a \$20,000 grant to be used for community initiatives that are identified throughout the community engagement process.

COMMUNITY OUTCOMES

Communities will strengthen their capacity to build healthier environments that can improve health and wellness. By the end of the 3-year initiative, communities will have:

1. Established or strengthened a multi-sectoral team with a shared vision,
2. Gained a comprehensive understanding of their community context,
3. Set priorities for action and developed a comprehensive action plan,
4. Implemented strategies that are grounded in scientific and experiential knowledge,
5. Evaluated their initiatives and identified the most effective ones, and
6. Developed a sustainability plan to maintain initiatives with the greatest demonstrated impact.

AHC INITIATIVE CONTRIBUTIONS

The Alberta Healthy Communities initiative provides an opportunity to meet the community where it's at. The AHC takes a flexible approach and recognizes the importance of providing the right level of support for communities.

AHC Initiative will support the development of a multi-sectoral community team and throughout the initiative will provide:

- Mentorship and guidance through Healthy Community Facilitators,
- Online and in-person learning opportunities,
- The Alberta Healthy Communities Action Guide,
- A Healthy Places Action Tool and Facilitation Guide
- The Alberta Healthy Communities Hub
- Community Capacity Assessment tool,
- Links to resources to help implement action plans,
- A library of action strategies, and
- Reports featuring population and community-specific data.

Project funding (provided by ACPLF), will be managed by a local organization/fiscal agent who will be responsible for financial reporting to ACPLF.

COMMUNITY MULTI-SECTORAL TEAM COMMITMENTS

A multi-sectoral team will be established to plan and implement the 5 steps of the AHC process and evaluate the project's success. Various tasks are undertaken at every step of the process which build on each other as the project progresses. Stages include developing the ground rules for collaboration (Terms of Reference); gathering local information and undertaking various assessments to understand the community; identifying community priorities for action, and considering strategies for evaluation; developing a plan for sustaining successful activities; and summarizing outcomes in a final report. A critical feature of the AHC process is identifying and building on the teams, and community's strengths and assets.

ALBERTA HEALTHY COMMUNITIES INITIATIVE

Building Healthy Communities Together

Overview for Communities
February 2019

**HEALTHIER
TOGETHER**

The Alberta Healthy Communities (AHC) initiative will provide communities an opportunity to create or enhance local partnerships and collaborate to address community wellness to achieve their vision of a healthier, more engaged community. The AHC provides a platform for community-centered, evidence-based action using local community data, thereby developing initiatives tailored to a community's unique assets and opportunities.

BACKGROUND

Being physically active, eating nutritious food, limiting alcohol use, and avoiding tobacco and UV exposure can reduce the risk of chronic disease, including cancer. While healthy lifestyles are important, individual choices are strongly influenced by factors that surround us, such as community design, access to parks and green space, access to nutritious, affordable food, community connections, and early life experiences. The factors that shape our social, economic, and physical environments impact positively or negatively on health, safety and wellness. By supporting communities to work collaboratively to take action on these factors, we can help make the healthier choice, the easier choice, and create more equitable opportunities for all Albertans to be well.

The Alberta Healthy Communities (AHC) initiative supports communities to create multi-sectoral teams that will assess local environments, set priorities, develop, implement, and evaluate action plans for sustainable health outcomes.

The AHC initiative builds on learnings from 16 rural communities that took part in the Comprehensive Community Cancer Prevention pilot project (2015-2019), led by the Alberta Cancer Prevention Legacy Fund (ACPLF). The current AHC initiative will support another 20 rural communities (population ≤ 15,000) beginning in 2019 and until 2022.

COMMUNITY OUTCOMES

Communities will strengthen their capacity to build healthier environments that can improve health and wellness. By the end of the 3-year initiative, communities will have:

1. Established or strengthened a multi-sectoral team with a shared vision,
2. Gained a comprehensive understanding of their community context,
3. Set priorities for action and developed a comprehensive action plan,
4. Implemented strategies that are grounded in scientific and experiential knowledge,
5. Evaluated their initiatives and identified the most effective ones, and
6. Developed a sustainability plan to maintain initiatives with the greatest demonstrated impact.

AHC INITIATIVE CONTRIBUTIONS

The Alberta Healthy Communities initiative provides an opportunity to meet the community where it's at. The AHC takes a flexible approach and recognizes the importance of providing the right level of support for communities.

AHC Initiative will support the development of a multi-sectoral community team and throughout the initiative will provide:

- Mentorship and guidance through Healthy Community Facilitators,
- Online and in-person learning opportunities,
- The Alberta Healthy Communities Action Guide,
- A Healthy Places Action Tool and Facilitation Guide
- The Alberta Healthy Communities Hub
- Community Capacity Assessment tool,
- Links to resources to help implement action plans,
- A library of action strategies, and
- Reports featuring population and community-specific data.

Project funding (provided by ACPLF), will be managed by a local organization/fiscal agent who will be responsible for financial reporting to ACPLF.

COMMUNITY MULTI-SECTORAL TEAM COMMITMENTS

A multi-sectoral team will be established to plan and implement the 5 steps of the AHC process and evaluate the project's success. Various tasks are undertaken at every step of the process which build on each other as the project progresses.

Stages include developing the ground rules for collaboration (Terms of Reference); gathering local information and undertaking various assessments to understand the community; identifying community priorities for action, and considering strategies for evaluation; developing a plan for sustaining successful activities; and summarizing outcomes in a final report. A critical feature of the AHC process is identifying and building on the teams, and community's strengths and assets.

ALBERTA HEALTHY COMMUNITIES INITIATIVE

Project requirements and estimated time frames for completion:

	Project requirements	Estimated timeline for completion
1	Terms of Reference (ToR)	Within 9 months of Healthy Community Facilitator officially starting to work with the community At end of the project implementation (revised ToR) At 1 year follow-up
2	Community capacity assessment	Within 12 months of starting the AHC Initiative At end of the project implementation (revised ToR) At 1 year follow-up
3	Healthy Places Action Tool (Section on ' <i>Community-at-large setting</i> ' mandatory, other sections for other settings are optional)	Within 12 months of starting the AHC Initiative At end of the project implementation (within 3 years of starting) At 1 year follow-up
4	Action Plan	Within 18 months of starting the AHC Initiative
5	Evaluation Plan (completed together with the Action plan)	Within 18 months of starting the AHC Initiative
6	Evaluation results (as applicable)	At the end of the project implementation (within 3 years of starting)
7	Sustainability Plan	At the end of the project (within 3 years of starting)
8	Final report	At the end of the project implementation (within 3 years of starting)

There will also be opportunities to inform, co-develop and co-design, as appropriate, newly identified tools and resources. As research and evaluation is critical to the overall success of the larger initiative, the multi-sectoral team will be invited to participate in various research and evaluation activities through-out the project and at a 1-year follow-up.

Community teams are also invited to participate in a variety of learning opportunities as part of the AHC initiative, including:

- Workshops and webinars on each of the five steps of the AHC process
- In-person gatherings and via teleconference
- Ongoing community team meetings
- Connecting with other communities

Building Healthy Communities Together!

Recommendation to Parks & Recreation Advisory

**THE VISTAS PARKS STRATEGY WAS APPROVED BY LEDUC COUNTY COUNCIL
AT THEIR FEBRUARY 26, 2019 REGULAR COUNCIL MEETING**

REPORT NAME

Vistas Parks Strategy

RECOMMENDATION

That Council approve the Vistas Park Strategy.

IMPLICATIONS

Reason:

Authority (MGA/Bylaw/Policy):

Funding Required: \$ _____

Funding Source:

BACKGROUND

Throughout 2018, Leduc County worked with IBI consulting to prepare a parks visioning strategy for the Vistas community. This process started in the spring with a public engagement event, then continued throughout the summer with surveys and engagement with Council. A draft report was presented to Council in the fall and once approved was provided to residents for further input. We have now reviewed all comments and have a final document that we feel captures the interested and needs of residents, interests of developments and long term goals of Leduc County.

From the final round of feedback that was sent out in December via a mail out and online questionnaire, we received very positive feedback. Some specifics include strong support for retaining/enhancing the Blackmud/Irvine Creek and the Woodlot area within East Vistas. Support was also strong for trail development and connectivity throughout the plan area, but consideration of routing through the country residential areas will be required. Some of the concerns included increased development near the current country residential areas and what

Recommendation to Parks & Recreation Advisory

potential park development might be occurring, as well as trying to understand some of the development standards proposed. It should be noted that any park development in this area will require further consultation with the adjacent landowners and that the standards presented are common practice in our neighbouring municipalities. In terms of changes to the final document, some of the figures were updated and some of the language softened to allow for increased flexibility but the majority of the recommendations remain unchanged from earlier versions.

This document will now be used as a guide and common vision to future Leduc County community developments. Parks will refer to this document in their comments to Planning and Development. Developers/land owners will reference the strategy in preparing their outline plans, subdivisions and developments. And the community can reference this document as a way to understand the future goals and direction of development in the Vistas area.

Key outcomes of this strategy:

1. An improved understanding of current land assets, needs and priorities.
2. A process to determine how and when we received Municipal Reserve dedication and how to achieve larger land goals in the future.
3. A clear set of industry accepted standards regarding urban municipal reserve dedication.
4. Goals and recommendations to improve our current planning practices and documents.
5. 16 recommendations summarizing the overarching high level themes of the strategy.
6. 17 tasks are provided as part of the implementation plan with a phased sequencing to reflect the reality that development will occur over a considerable period of time in this area.

Vistas Community Parks and Open Space Strategy – Feb 2019

PARKS and RECREATION
Department Activity Report – March 6th, 2019

Community Development

- The East Vistas Community Association has filed their official society status paperwork and should be receiving their registration this spring. I have been meeting regularly with this eager group of community members and they are planning a Canada Day event to kick off their community engagement.
- We continue to support several community halls and facilities that are seeking funding for facility upgrades, improvements, and special events. Currently we have sent letters of support to the Thorsby Ag society for upgrades to the Thorsby Haymaker Center, Telford Community Hall for their playground upgrades, Rundles Mission for their Indigenous Days celebration, and most recently the Calmar Ag Society for replacement of their ice plant.
- We continue to host committee meetings with representatives of Beaumont and Leduc towards a new cost share agreement. We hope to have the agreements finalized by the June budget payment. Conversations are going well and I believe that we will have an agreement that is fair for all partners.
- Recreation and Arts and Culture grant submissions are now closed. Regional Recreation Board meetings are currently taking place and funding will be approved by council on March 26th. The Arts and Culture grant summary outlines each request for funding, and after decisions have been made by the PRAC members, it will go to council for approval on March 26th as well.
- Council approved the grant recommendations that were put through in 2018 and we have made improvements to how we support not for profit community associations and facilities within Leduc County. Please see the attached letter about community hall support.
- Leduc County, on behalf of New Sarepta, has been selected for the Healthy Communities Initiative. This is a grant program that will span the duration of 3 years and focus on community data to drive community initiatives and programs to enhance health and wellness in New Sarepta. Please see the attached document for more detail.

Programs and Events

- Home Town Hockey made its debut in Leduc on February 2nd and 3rd. Leduc County was represented at a community tent at the LRC. We hosted box hockey, face painting and give away goodies. Although the event was very cold, everyone who attended had a lot of fun and it was a great way to promote Leduc County Parks and Recreation.

- On February 16th Leduc County assisted the Wizard Lake Watershed host their first Winter Try It Festival. They had 190 people participate in the day and activities included ice fishing, skating, cross country skiing, snowshoeing, maple syrup snow candy, winter crafts, hot dogs and hot chocolate and more! The event was very successful and it would not have been possible without the extreme dedication of the Wizard Lake Watershed volunteers. This is an event that will be hosted for 2 more years as a result of a grant they received for the Alberta Summer Games Legacy fund.
- Summer plans are well on their way and we have almost all our camps booked with facilities. There will be a few small changes this year but all the camp favorites will be back. Program details will be released in early April. Advertising will be posted on social media, with a program guide and a 1 page flyer will be mailed to county residents. We will continue programming with purpose and exposing our campers to environmental education, learning about where our food comes from and how it is grown, and encouraging healthy, active lifestyles with fundamental movement skills and physical literacy. Some of the changes include taking our Boys Wilderness and B.O.P camp to camp Wohelo. This will increase the amount and variety of activities they can take part in. These activities include canoeing, swimming, archery, and cooking. We are proud to support this county facility and we are looking forward to adding more to our programs with this partnership. Drop in programs, including the Imagination Junkyard, Park and Play (going to be renamed “Free Range Kids”), and the Environmental Ambassador program will continue with stops throughout Leduc County at local playground, green spaces, and campgrounds.
- We will be hiring 1 new Program Coordinator, 2 new Program Leaders and 2-3 casual program leaders for the 2019 summer program season. We have a few returning staff that will help to train new staff.

Facilities

Nisku Recreation Centre

- I have been working with the facility manager to improve on efficiencies around staffing, maintenance, ordering of supplies.
- Lighting replacement project is an ongoing project.
- Banquet facility bookings are on the rise. Very few weekend bookings available between March and October.
- Fitness facility continues to see a steady stream of usage.

Facility Supports

- The Warburg Arena facility upgrades are on schedule and budget. Running on its own mechanical and heating systems. We are now working in partnership with the Village of Warburg to prepare for grand opening and future promotions.
- Assisting the Town of Calmar with hall rental pricing. Provided information and contacts for halls within the county.
- Ongoing work with the Fire Department on Ammonia Safety

Campgrounds

- Summer staffing advertising has come to a close, setting up interviews.
- Planning for all campground activities underway.
- April 1, 2019 registrations for Centennial Park Campground will take place through our Contracted Campground Host
- April 2, 2019 only will see our call centre open for May Long Weekend bookings
- April 3-5 the call centre will take bookings for the rest of the summer. Then we will not take reservations until May 7, 2019 once our staff are onsite at the Jubilee Campground
- Campgrounds all open for the Season on May 17, 2019
- Finished a review of campground revenue for Jubilee, Centennial and Sunnybrook Group campgrounds for 2016-2108

General

- Parks and Recreation has been working with Enforcement Services to update the Parks bylaw.

Parks/Municipal Reserves

- Vistas Community Parks and Open Space Strategy – A final round of public engagement occurred in January of 2019, and following that, the final draft was completed with only minor changes to the previous draft. On February 26th council approved the final draft which will now allow us to use the information contained within it to create a complete parks system that meets everyone's needs.
- The seasonal Light Equipment Operator positions are all filled with returning staff from last year other than the shared position with Ag which we are interviewing for at this time.
- Contracts are being completed for west area park and grass maintenance, as well as for portable toilet rentals.
- Genesee Heritage Park Group Campground road, site, and fence work has been completed. Fire pits, picnic shelter and outhouse will be completed over winter and spring with a potential opening date of July 1, 2019.
- North Saskatchewan Access Plan – We continue to work with the firm WSP and Parkland County to evaluate our options for access at this location, with the three potential options now being put past Alberta Transportation for initial feedback.
- We are currently finalizing agreements for utilization of the New Sarepta ball diamonds this spring. Similar to 2018, these diamonds will be used 6 nights a week with 2 nights of adult slow pitch, 2 nights of local minor ball and 3 nights of Beaumont minor baseball. We will continue to offer the diamonds to Beaumont at no cost as they serve many Leduc County residents and it is good for the community as we attract nightly visitors.

Operational Plan Updates

The following is a summary of activities and updates as related to the 2019 Department Business plan.

1. Adopt a strategic approach to community building that identifies community needs, access to services and financial sustainability.
 - a. Although strategic plan funding was not approved in the budget we continue to engage with each community to gather feedback. The Healthy Communities Funding will play a key role in leading community conversations and developing strategies that help meet their needs.
 - b. We have asked for a Council workshop opportunity that will allow us to work with Council to identify our actions as they relate to the National Recreation Framework document. Our goal is to use this information to develop a visioning statement and action for Leduc County recreation.
 - c. Vistas park strategy has been approved. We will now develop a plan of action to implement recommendations.

2. Increased collaborative efforts among local governments, voluntary organizations and individuals that support and nurture a vibrant recreation system for community service provision.
 - a. Increased funding for halls was supported in the 2019 budget process.
 - b. New recreation grant funding policies have been approved to encourage additional recreation programming and events.
 - c. Additional funds were approved to continue cultural grant supports.
 - d. Cost Share agreements are being reviewed with Leduc and Beaumont. All other agreements will be reviewed in late 2019 or early 2020.
 - e. Although the special parks amenities grant program was not approved in the 2019 budget, we are introducing this initiative again in preliminary 2020 budget talks.

3. Strategies and policies will be developed to ensure that no families or individuals in Leduc County are denied access to community programs and services as a result of economic disadvantage.
 - a. An increased number of low cost community programs are being planned for 2019

4. Continued efforts to expand access to the North Saskatchewan River will be explored.
 - a. We continue to work with WSP engineering to identify opportunities to access the river at the Genesee bridge.

Leduc County support to community associations

Leduc County has made revisions to several areas of our not-for-profit support system, and we would like to take this time to give you an update on the areas that have been improved.

1. Funding

Annual facility operating funding

Each year, Leduc County has made a commitment to provide funding assistance to key community facilities and service providers in the region. Leduc County is committed to ensuring annual funding remains in place for key facilities that play an important role in service provision to residents. Community facilities will be receiving **\$5,000** in 2019 to help cover operating costs and small hall upgrades. The increased funding is intended to be used for increased operating costs as well as small capital projects, which may include small renovations, purchasing equipment or supplies, as well as small hall upgrades.

Recreation board funding grants

Leduc County provides community recreation grant funding for programming, special events and new initiatives throughout the region. Examples of these initiatives may include, but are not limited to, offering discounted fitness classes, children's programs, senior's activities and low-cost community family events. Community halls are encouraged to submit applications for regional recreation grants for special programs and events hosted at the hall. In the past, community halls were able to receive funding through regional recreation grants for equipment purchases or small renovations. In 2019, community halls are no longer eligible for capital or equipment purchases through the regional recreation grants. Funding levels will also be reviewed annually to ensure that appropriate funds are budgeted to meet community needs.

Special project and emergency funding

All community facilities have the right to request immediate funds for support due to circumstances beyond their control. Examples of this funding would include a new roof or emergency electrical updates to the entire hall due to safety concerns.

Grant assistance

Leduc County will provide resources to assist community associations in achieving their fundraising goals and maximizing available grants from external sources. Resources will be provided by staff as necessary to assist the association in preparing a successful grant

Leduc County support to community associations

application. Staff will also be committed to stay knowledgeable of all available grant programs for community associations. Resources will be made available to associations working to prepare and develop fundraising campaigns for project development.

**Council funding and sponsorship is also available and open to all Leduc County members*

2. Communication

A commitment has been made by Leduc County to ensure that regular and consistent communication is made to community service associations in Leduc County. This commitment is also extended to neighbouring associations of which Leduc County residents play a primary role. This level of commitment will ensure that key leadership board members are aware of the resources and services available to community associations from Leduc County. This will also ensure that Leduc County is in touch with the needs and priorities of the community, in order to provide the best level of service possible. If you would like to receive regular updates and information for community halls, please subscribe to our e-newsletter by sending an email to andrea@leduc-county.com.

3. Training and Development

Leduc County will continue to provide low cost/ no-cost training and development to Leduc County not-for-profit associations. Training opportunities will vary based on need and will attempt to provide opportunities throughout the year. Resources are also available to help community associations administer their own training and development specific to their association needs. Examples of training and development include grant writing, board-development workshops, financial review and capital-project assistance.

4. Insurance

Leduc County community associations are listed as an additional named insured group under the county's insurance program. This allows them to get a reduced rate for insurance. An agreement must be signed each year to be considered insured under this program. This agreement has requirements which must be followed each year. If you would like more information about this program, please contact:
