Alberta Justice Bulletin #19-2020 - Regulation Amendments to Eliminate Permits

Officer Nelson went through the Alberta Justice Bulletin #19-2020 - Regulation Amendments to Eliminate Permits with Committee Members. Clarence indicated that certain permits will no longer be needed as the requirements will be in regulations instead.

There was discussion around the change to legal weights pertaining to wide case single tires, steer axles, Transport Association of Canada (TAC) allowable weights for tridem axles and vehicles exceeding 53,500 kgs GVW.

Municipalities will still be able to put on road bans. However, if our municipality feels our roads are not ready for this change in legal weights, we can still set our own maximum legal weights locally. If we do this, it needs to be treated as a road ban with the same amount of signage on each local road.

Des indicated he is concerned about single-wide base tires; depends what variety they use; rutting and damage to road could be worse. Can see accelerated degradation to roads in Nisku.
