Legal Land Description: _____ 1/4 Section _____ Twp _____ Rge _____ W _____ M

Telephone: _____

Calcium chloride top-shoot dust suppression strips shall be applied to the identified road surface by the Leduc County Road Operations Department after completion of this application form by the Resident / Landowner and the prepayment of the calculated fee. Scheduling of the work shall be subject to regular dust suppression program priorities and shall be combined with other requests in the same geographical area to maximize cost effectiveness.

Applications and payment must be received before May 15, 2020. No applications will be accepted after this deadline.

- Calcium chloride top-shoot dust suppression** strips shall be a minimum length of 122 meters (400 feet) and a maximum length of 366 meters (1200 feet) of roadway surface. Requests for top-shoot dust suppression strips greater than 122 meters of roadway surface shall be subject to the discretion of the Director, Road Operations & Agricultural Services or his designate. All strips will automatically have a second application occurring approximately 6-8 weeks following the first application, weather permitting. Residents do NOT need to call to request this second application.
- Leduc County will subsidize \$695.50 for the initial 122 meters. Accordingly, a fee of **\$374.50 plus GST**, will be charged, plus a fee of \$8.77 per meter plus GST for each meter thereafter, up to a maximum total of 366 meters. Dust suppression strips for businesses or for businesses paying for residential strips will be charged the full rate without subsidy plus any applicable extra meters plus GST.
- The **top-shoot dust suppression product used is only a temporary** solution to the dust problem and is intended to be effective for one (1) season only.

Number: **20 - - CC**

On this map, please indicate the location of your home, approaches, Township and Range Roads, and where you want the dust suppression strip located.

To ensure the correct placement of the dust control product, **stakes should be placed** at the side of the road, identifying the start and end of the strip, otherwise this sketch will be used as the correct location in the event of a discrepancy. No applications will be accepted without acceptable drawings.

Notes:

Calcium Chloride may cause damage to grass and trees, however, Leduc County will not assume responsibility for any leaching, and/or damage to trees and grass.

It is imperative that regular maintenance work continue to preserve the road base in a smooth and safe condition for the traveling public. Accordingly, maintenance of the treated portion of the road will be consistent with other County roads. A grader will be used to level and fill in ruts, washboard or potholes when required. Typically, all gravel roads will be re-graveled every 2 – 4 years. Therefore, the dust control strip may be graveled over during the regular program to ensure safety and integrity of the road surface.

I/We, the undersigned, hereby make application for a **calcium chloride top-shoot dust suppression** strip to be applied by the Leduc County Road Operations Department to the municipal roadway adjacent to my/our residence at the location described.

It must be stressed that Leduc County retains full ownership of and responsibility for the maintenance of roads under Leduc County jurisdiction. Your contribution to the top-shoot dust suppression strip in no way constitutes a permanent right of any kind.

INITIAL HERE to acknowledge that you have read, understand, and agree to all the terms and conditions of this application.
