# Subdivision time frames

## Important information

Date \_\_\_\_\_

File number \_\_\_\_\_

Important information regarding your subdivision application and the time frame and actions for which you, the applicant, will be responsible.

Your application for subdivision has now been formally accepted by our office. Please note that when inquiring about your subdivision application you should quote your file number.

Pursuant to Section 6 of the *Subdivision and Development Regulation* (43/2002) and Section 681(1) (b) of the *Municipal Government Act*, 2000, as amended, the time prescribed within which the Leduc County must make a decision on an application for subdivision approval is sixty (60) days from the date the completed application is accepted by this office.

\_\_\_\_\_  
Acceptance date

\_\_\_\_\_  
Application expiry date

If the Leduc County fails or refuses to make a decision on the application for subdivision approval prior to the above application expiry date, you, as the applicant, may within 14 days after the expiry date:

1. treat the application as having been refused and appeal your application Pursuant to Section 678 of the *Municipal Government Act* (contact the Leduc County regarding appeal procedures); or
2. enter into an agreement with the Leduc County to extend the date prescribed.

A time extension agreement is attached to this information sheet. Should a decision not be made within the sixty (60) days, further processing of the application by this office is terminated, unless the applicant enters into a time extension agreement.

It is to the benefit of the applicant to enter into a time extension agreement prior to the expiry of the initial sixty (60) day period, to avoid processing delays. An extension can be granted within fourteen (14) days after the expiry date of your application.

*I/we the applicant(s) do hereby choose not to enter into a time extension agreement.*

# Absence of abandoned wells on parcel

*Why do I need to disclose information about abandoned wells on my parcel?*

## **New requirements**

Effective November 1, 2012, the *Subdivision and Development Regulation* (Alberta Regulation 160/2012) has changed. The changes relate to the subdivision and development requirements around abandoned well sites. The new provisions require some changes to our business practices. In addition to our current application submission requirements, all new subdivision applications must include the following:

- Information provided by the Alberta Energy Regulator (AER) identifying the location or confirming the absence of any abandoned wells within the parcel on which the building is to be constructed, or, in the case of an addition, presently exists.
- This information can be obtained by either contacting the Alberta Energy Regulator Customer Care Centre at 1-855-297-8311 (toll free) or using the abandoned wells web site at <https://aer.ca> to confirm whether an abandoned well is located on your property.

If you *do not* have an abandoned well site on your property, you will be required to fill out the **Declaration – Absence of abandoned wells on parcel** form and include it with your application.

If you *do* have an abandoned well on your property, you will be required to meet the requirements as set out in ERCB's Directive 079 and the *Municipal Government Act Subdivision and Development Regulation*.

### **(4) As per the ERCB's Directive 079, the applicant must submit;**

- (e) information provided by the AER as set out in AER directive 079, surface development in proximity to abandoned wells, identifying the location or confirming the absence of any abandoned wells within the proposed subdivision, and
- (f) if an abandoned well is identified in the information submitted under clause,
- (e) (i) a map showing the actual wellbore location of the abandoned well.
