Message from the Fire Chief

Being a firefighter is a rewarding opportunity for those who take up the challenge. This package provides information about our service, the risks and rewards of becoming a full-time firefighter with Leduc County, and the requirements for the recruitment process; this information will help you to determine if this fulltime opportunity is right for you.

Fire Services is committed to providing fire and rescue services to all residents and businesses within Leduc County. Our dedicated and well-trained team of full-time firefighters will operate out of the South Nisku Fire Station located at 1105 5 St. in Nisku. The full-time firefighters will work closely with the current paid on-call firefighters who are committed to protecting the lives and property of citizens, workers in and visitors to Leduc County any time of day, all year round. Our firefighters truly are the heart and soul of our service.

Our firefighters respond to emergencies including, but not limited to, residential, rural and industrial fire calls, industrial accidents, vehicle collisions, Edmonton International Airport responses and medical aid assists.

Your commitment and dedication to the community in serving as a firefighter will result in tremendous personal benefits; it is a great way to gain important life safety skills and improve your confidence and courage. Leduc County offers great personal development and promotional plans, and access to physical and mental health programs. In addition to joining a great team, you will become part of our family.

We celebrate the diversity of our team and welcome individuals from all backgrounds. Our recruitment aims to build and support a diverse workforce with the shared mission of providing the best possible service to the communities we are charged to protect, while at the same time, ensuring the ongoing health and safety of our personnel.

We strive to provide fair treatment, access, opportunity and advancement for all members. We commit to continually working to improve our approach through the identification and elimination of barriers or practices that may create disparity.

If you are inspired by what you have read, feel that you have what it takes, and are interested in becoming a full-time firefighter with Leduc County, I encourage you to apply at leduc-county.com/recruitment.

Keven Lefebvre, ECFO
Fire Chief, Fire Services

Information

Requirements

Firefighting is a challenging, demanding exciting and fulfilling career that challenges you to learn every day. It encompasses many attributes such as effective communication, emotional intelligence, problem solving, empathy, ability to work as part of a team and resilience. To ensure our applicants are suitable for the job, the recruitment process is competitive and has several steps.

It is the applicant's responsibility to fulfill all requirements, meet all deadlines and be available to attend all scheduled dates provided as part of the assessment process, as outlined in this package.

The following conditions **must be met** to be considered for a firefighter position with Leduc County:

- ▶ Be a minimum of 18 years of age
- ▶ Hold a high school diploma or equivalent and/or certification in the following:
 - ▶ National Fire Protection Association (NFPA) 1001-Level I and II
 - ▶ NFPA 1002 Operator, pump, and aerial (or equivalent)
 - ▶ minimum First Medical Responder (FMR) 80-hour course medical certificate
- ▶ Have at least two years firefighting experience with a recognized fire department.
- ▶ Be able to work shift work.
- ▶ Hold a valid Alberta class 3 drivers' licence with Q endorsement (airbrakes).
- ▶ Provide driver's abstract satisfactory to Leduc County (seven or less demerits).
- ▶ Provide a Vulnerable Sector Check.
- ▶ Complete a medical and psychological health assessment.
- ▶ Possess the following qualities:
 - ▶ clear and effective verbal and written communication, and the ability to communicate instructions
 - ▶ strong interpersonal skills
 - ▶ excellent problem solving and conflict resolution skills

Principle duties and responsibilities

As a firefighter with Leduc County, you must perform your duties and responsibilities at a high level of consistency and in accordance with Fire Services' policies and standard operating guidelines. Principle duties and responsibilities include the following:

- ▶ Responds to emergency/disaster incidents and carries out fire duties as assigned.
- ▶ Controls fire nozzles or appliances and performs fire hose work (e.g. connecting, loading and moving).
- ▶ Works in self-contained breathing apparatus in hazardous areas.
- ▶ Works from heights as required.

- ▶ Operates fire department vehicles and moving, assembling and operating various emergency equipment (i.e. generators, portable pumps, and ladders).
- ▶ Provides scene safety such as public or traffic control.
- ▶ Completes daily inspections and station duties while on shift.
- ▶ Performs public education and fire prevention activities as assigned.
- ▶ Trains as required to maintain safety and competency.
- ▶ Adheres to guidelines, rules, regulations, policies and procedures as outlined in Leduc County Fire Services Policy and Procedure Manual.

Working conditions

Working as a firefighter will expose you to a variety of conditions. Some situations you should expect to encounter as part of normal routine are as follows:

- ▶ There is significant risk of exposure to hazards when attending fires or other emergencies. Firefighting work is dynamic and often includes unstable and changing environments.
- ▶ The work is also often strenuous. Many situations will require the use of specialized personal protective equipment.
- ▶ Firefighters face an increased risk of certain cancers, cardiovascular disease, post incident psychological stress, and sprain or strain injuries.

Physical and mental demands

Leduc County views fitness and mental health and wellness as an important part of firefighting due to the physical and mental strain experienced on the job. Firefighters must report fit for duty, both mentally and physically.

Firefighters must be able to do the following:

- ▶ Maintain a continuous level of physical fitness to perform all required duties including but not limited to excellent cardiovascular fitness, physical agility, and stamina in extremely adverse conditions.
- ▶ Must have the ability to lift heavy equipment/loads as needed and may have to carry equipment weighing 20-40 lbs. upstairs while wearing Personal Protective Equipment and gear weighing at least 50 lbs. and move, lift, or carry, victims and patients.
- ▶ Applicants will be required to complete a physical fitness evaluation.

Application process

The application process for full-time firefighters with Leduc County has been broken into the following steps; candidates will be evaluated during each step to determine if they will proceed to the next step:

- ▶ Step 1 – Submit application
- ▶ Step 2 – Aptitude test

- ▶ Step 3 – Interview
- ▶ Step 4 – Medical evaluation
- ▶ Step 5 – Practical physical fitness test
- ▶ Step 6 – Reference checks
- ▶ Step 7 – Potential job offer

Step 1 – Submit application

The application (online at leduc-county.com/recruitment) provides Leduc County with information on the applicant's education, relevant training, work experience and current references.

We recommend an applicant includes a current driver's abstract alongside their application. A driver's abstract is available from any vehicle registry office. The driver's abstract must detail seven or less demerits.

Applications will be reviewed by Leduc County, and a pool of candidates will be selected to proceed.

Note: If you are found to have falsified or intentionally misrepresented your credentials, your application file will be permanently closed and no future applications will be accepted from you.

Step 2 – Aptitude test

To be successful in this demanding role, firefighters must possess some specific skills. The aptitude test content areas are as follows:

- ▶ reading and understanding written information
- ▶ numerical skills
- ▶ maps, diagrams and mechanical reasoning
- ▶ teamwork and interpersonal skills

Applicants that proceed to this step will be invited to write the test at a specified date, time and location. There will not be any re-writes or rescheduling of the test.

Step 3 – Interview

We will contact applicants chosen for an interview. Applicants must bring the following items to their interview:

- ▶ current criminal record and vulnerable sector check, available from local police detachment
- ▶ any certificates and/or licenses you mentioned in your application

Note: Failure to bring the above items to the interview can result in cancellation of the interview.

Step 4 – Medical evaluation

Applicants who are successful in reaching this step in the application process must attend a medical evaluation with a specified physician; all discussions with the physician are confidential.

Fitness is extremely important throughout a firefighter's career. Our medical and fitness requirements have been set to enable firefighters to do their job safely, for themselves and others. Our requirements are based on the [National Fire Protection Association \(NFPA\) 1582 Standard](#); learn more at nfpa.org.

The NFPA standard also lists disqualifying medical conditions which deem you not fit to do the job safely. If you have or think you may have any of the disqualifying medical conditions in the standard, bring this NFPA information to your medical evaluation for assessment.

At your evaluation, you must provide your up-to-date immunization records, which include Hepatitis B, tetanus/diphtheria, MMR (measles, mumps rubella), polio and varicella (chicken pox). Depending on where you received your immunizations, records may be obtained through the following:

- ▶ contacting Health Link at **780-408-5465** or **8-1-1**
- ▶ through registration with myhealth.alberta.ca/myhealthrecords
- ▶ your family physician
- ▶ a travel clinic
- ▶ your previous or current employer
- ▶ your pharmacy

The above list is not exhaustive and you are encouraged to contact other sources to obtain your immunization records. If you are from out-of-province or out-of-country, contact the appropriate authorities in your home province/country for your immunization records. Failure to provide your immunization records **will delay** completion of your medical evaluation.

Step 5 - Practical physical fitness test

We test applicants' physical fitness to ensure they possess the physical abilities necessary for firefighting duties.

Applicants must participate in, adhere to the U of A COVID participation requirements and successfully complete a practical physical fitness test administered by the University of Alberta's Faculty of Kinesiology. You can find more information here: [UofA fitness test](#)

You will need to have and demonstrate the following:

- ▶ flexibility
- ▶ muscle endurance
- ▶ muscle strength and power
- ▶ cardiovascular endurance
- ▶ healthy body composition

- ▶ fundamental movement techniques (pushing, pulling, lifting, squatting, lunging, carrying and dragging)

The practical physical agility test evaluates an applicants' ability to perform basic firefighting tasks.

Please review document found here: [what to expect](#)

Step 6 – Reference checks

Applicants must provide the names and contact information for three references, including one recent employment reference (current employer preferred), on their application. At this stage of the process, the human resources business group contacts references for feedback.

Step 7 – Potential job offer

Following the successful completion of the recruitment process, Leduc County may offer a full-time firefighter position. A one-year probationary period is mandatory.
