The issuance of a permit or examination of plans/specifications shall not be construed to be an approval of any violation of any provisions of the Safety Codes Act, regulations made pursuant thereto, bylaws or agreement. I hereby verify that digital plans, specifications or other information provided to Leduc County are identical in content to paper documents provided. Changes to any of the documents will be provided to Leduc County in digital format (and paper copy if requested). I am the owner/applicant with the consent and authority of the owner that is the subject matter of this permit application. I have read and agree to the conditions on the reverse page of the application form. I hereby certify that this installation will be completed in accordance with the Safety Codes Act and regulations made pursuant thereto.

Applicant Signature		Printed Name

I hereby authorize Leduc County by this signature to charge my credit card account number given here.
Credit card payments over \$4,999.99 will incur a 2.4% processing fee on any single application or form.

Conditions

Act – The issuance of a permit shall not prevent a safety codes officer from issuing a correction notice if construction or part thereof is found not to be in accordance with the Safety Codes Act, regulations and Bylaws.

Deviation – No deviation from plans, specifications or information contained on the application for this permit shall be permitted without prior written authorization from the safety codes officer.

Safety codes officer – The person authorized to perform installations governed by this permit shall notify the safety codes officer prior to concealment of any portion of the installation.

Excavation – Before excavation is started, check for the location of utilities.

Inspection – The safety codes officer shall not be refused admission during any reasonable hour of the day for the purpose of conducting an inspection.

Final inspection – Upon completion of all the work authorized by this permit, the safety codes officer shall be notified that all work is completed and ready for final inspection.

Occupancy - No occupancy of new construction shall take place until permission to occupy is granted by Leduc County.

Important notice

If any portion or part of the work is concealed prior to an approval by a safety codes officer all work may be requested to be uncovered.

Any required re-inspection shall be subject to a re-inspection fee, as per current fee schedule. This fee is required to be paid prior to the re-inspection taking place.

Any person who commits a breach of any of the provisions of the *Safety Codes Act*, or regulations made pursuant thereto, or of the conditions of a permit is guilty of an offense under the act.

Deficiencies shall be corrected within 15 days or as specified by the safety codes officer.

Your personal information is collected by Leduc County under the authority of section 33(c) of the Alberta Freedom of Information and Protection of Privacy Act. It will be used for the purposes for which it is collected. Questions concerning the collection and use of this information can be directed to Leduc County's FOIP coordinator at FOIP@leduc-county.com.

Requirements for site constructed single-family dwellings/additions

1. The application form must be fully completed and signed
2. Digital (PDF) copy of plans must be unprotected (no PDF/A or digital signatures)
 - a. **Site plan containing:**
 - Dimensions of the property
 - Positions and dimensions of all buildings that exist or are to be constructed
 - Dimensions from buildings to property lines and to each other
 - Location of any lake, stream or other embankment and distances to proposed construction
 - b. **Construction plans, drawn to scale and legible, including:**
 - Foundation plans
 - Elevation drawings showing grade level, window and door sizes, **wall area and window area calculations**
 - Floor plans for each floor showing the use of each room, locations and sizes of windows, doors and door swing direction, location of smoke detectors
 - Cross sections showing construction details of footing, foundation, walls, floors and roofs including insulation
 - Structural, mechanical and electrical drawings (if separate from floor plans)
 - Seal of architect, engineer or other professional where required (see notes below)
 - Energy efficiency information – RSI values on walls, ceilings and floors over unheated spaces, or, energy efficiency modeling report.
 - Plans are required to have sufficient information to allow a safety codes officer to determine that the proposed construction will meet the requirements of the Alberta Building Code.
 - c. **Fire safety plan** (safety during construction)

Plans submitted will be reviewed by a safety codes officer. Further plans or information may be required prior to permit issuance.

Important notices

Secondary Suites have specific building code requirements that must be met. Please contact our office for more information.

Dwellings on small lots

There are specific requirements for construction of dwellings on lots the fire department is unable to reach within 10 minutes which includes all of Leduc County. The High Intensity Residential Fire (HIRF) requirements will be provided on request. Please provide to your home designer or manufacturer. Wall area and window area calculations for side elevations must be provided on your construction drawings.

Engineering required

In general, residential projects require engineering for the following:

- Roof and floor truss plans
- Tall walls
- Preserved wood foundation plans
- Pile or pile/grade beam foundation plans
- Geothermal heating system plans
- Hydronic in-floor heating system plans

New home warranty/builder licensing

A copy of the new home warranty or exemption *confirmation* from Alberta Municipal Affairs is required prior to permit issuance for site constructed, manufactured, modular and RTM homes. The builder must have a provincial builder's license. Call 1-866-421-6929 for more information on the new home warranty and builder licensing programs.

Project description

General considerations:

- A warning system will be in place at all sites to warn of potential threats and facilitate evacuation.
- Each site will have a muster point where workers can be accounted for.
- A method of notifying the fire department or other emergency agency shall be available at all times.
- Fire extinguishers will be available at all times at every site while workers are present.
- Access to fire hydrants and buildings for fire apparatus must be maintained.

Hazard control:

- At the end of each day, combustibles will be cleared from the site area, disposed of in bins, or stored in neat piles.
- No open-flame devices will be used inside buildings unless a dedicated watch is in place – this includes hot works.
- LPG tanks or flammable liquids containers are not allowed within buildings.

Action in the event of a fire

Upon discovery of fire

- Leave fire area immediately.
- Turn off equipment.
- Ensure room doors are closed.
- Notify occupants verbally or sound horn.
- Use nearest exit.
- Call the fire department at **9-1-1** from a safe location.
- Try to extinguish or control the fire if safe to do so.
- Go to mustering point, and stay there until instructed otherwise.
- A supervisor must await the arrival of the fire department at access point.

Upon hearing of a fire condition

- Turn off equipment.
- Use nearest exit.
- Ensure room doors are closed.
- Go to mustering point, and stay there until instructed otherwise.
- Designates must account for all people expected to be on site.

Emergency numbers

Call **9-1-1** in an emergency needing fire, ambulance, police, dangerous goods or rescue services.
