PG-02 Dust Suppression – Fee for Service

Policy Statement

Leduc County Public Works and Engineering department shall provide eligible residents of Leduc County with subsidized dust suppression services.

Policy Intent

To provide dust suppression services on a fee for service basis to residents who live beside county gravel roads and to ensure that this service is delivered equitably and efficiently.

Service Level Standards

1. Leduc County will provide the first 122 metres at a subsidized cost and any additional length to a maximum of 366 additional metres at a cost as outlined in the current Leduc County Fees and Charges Schedule. The first 122 metres of incorporated dust suppression strip shall be warranted for one calendar year from the date of installation.
2. The policy applies to county gravelled roads adjacent to residences.
3. All county residents residing along a county gravelled road are eligible. Commercial businesses are not eligible for this service on a subsidized basis. Applications shall be made by the resident occupying the residence. All other applicants shall not be provided with subsidized services and shall be billed for the cost of the service (as outlined in the current Leduc County Fees and Charges Schedule).
4. Schools, churches, cemeteries, community centers, agricultural societies and waste transfer stations shall receive top shoot application and are exempt from the cost of this service.
5. Top shoot dust suppression service shall be provided following receipt of payment from the applicant, after the dust suppression application deadline. Incorporated dust suppression service shall be provided following receipt of payment from the applicant, after the dust suppression application deadline.

Monitoring & Updating

This Policy shall be reviewed every two (2) years.
